Chalets and fixed caravans are mapped, but surrounding curtilage, fences, touring caravans and tents are not. Please respect the privacy of residents and be aware of cars moving around access roads, both in the forest and at the caravan site.</p>
Start	<p>Prologue : 1km down a steep bank, then along road/tracks Chase : 1.5km along road/tracks</p> <p>Yellow : At Assembly (EOD)</p> <p>Loose control descriptions will be available at start</p>	<p>The walk to and from the prologue passes a Christian retreat centre, please respect their privacy. The finish of the prologue is adjacent to the start, so you can leave kit there. The chase finishes close to the caravan site. Clothing left at the chase start will eventually make its way back to assembly when we bring the start in.</p>
Terrain	<p>The JOK Chasing Sprint is forest orienteering: you will need studded shoes and full leg cover.</p>	<p>Faskally is a technical area with plenty of contour and rock detail. Going is generally clean underfoot, if steep in places. Craggs are a good size but boulders and paths can be small; "Undergrowth walk" is typically fallen trees and close to impassable. There is one compulsory crossing point in the chase through a gate marked "<i>please close the gate</i>". You do not need to do so - JOK marshals will do this at the end of the day. After the crossing point, you return to the caravan site on the pavement beside the B8019 - do not run on the road here.</p>
